

Mint of the United States at Philadelphia,

MELTING AND REFINING DEPARTMENT,

Philadelphia, 24. Jan. , 1880.

Sir,

There is a coil of Steam-pipe in the Sweep-grinding cellar, formerly employed to throw up warm air into the Refinery, but it has not been used for a long time, because it has not been required, and because it throws up volumes of dust from the Sweep grinding & sifting.

As it occupies space, which will be available with our new grinder, crusher and sifter, I ask permission to have it removed. I suppose that Mr Cowden could have it done.

Respectfully yours

J. C. Booth
